EDUCATION

University of New Brunswick **Fredericton, NB**
Bachelor of Computer Science Graduation date: August 2028

- **GPA**: 4.0/4.3
- **Coursework**: Introduction to Software Engineering, Information Security, Data Structures and Algorithms, Introduction to Databases, Net-centric Computing
- **Honours**: Dean's List 2024-2025, 2025-2026; John Khoury Scholarship
- **President** - UNB Computer Science Association; **VP Competition** - UNB Programming Club

WORK EXPERIENCE

University of New Brunswick - Analytics Everywhere Lab (AELab) **Fredericton, NB**
Research Assistant (AI Developer) October 2025 - March 2026

- Engineered a **MERN full-stack blog platform** with an integrated **content management system (CMS)** enabling efficient administration and publication of blog content.
- Designed and developed an **AI-driven medical RAG chatbot** leveraging **Electronic Health Records (EHR)** to generate patient summaries, predictive insights, and clinical recommendations for healthcare professionals.
- Applied advanced AI concepts, including **Retrieval-Augmented Generation (RAG), AI agents, and machine learning algorithms**, to develop intelligent and scalable solutions.

Government of New Brunswick - Department of Education and Early Childhood Development Fredericton, NB
Centres of Excellence Experiential Learning Intern May 2025 - Present

- Contributed to the development of an **AI-powered chatbot** that generates and evaluates **curriculum-aligned experiential learning activities**, streamlining planning processes for educators and administrators.
- Performed **data analysis** across four K–12 experiential learning programs, creating 10+ **Power BI dashboards** to uncover trends, support strategic decision-making, and standardize evaluation frameworks.
- Developed and enhanced **80+ experiential and outdoor learning resources** to support the integration of hands-on, curriculum-based learning into core education programs.

TECHNICAL PROJECT

Data Analyst Project | MySQL, Excel, Tableau, Power BI, Python, Pandas, Azure, AWS

- Built a professional **data analyst portfolio website** and gained practical experience with cloud technologies such as **Azure and AWS** for data analysis, visualization, automation, and storage.

SKILLS

Programming Languages: Java, Python, HTML/CSS, JavaScript, C, Assembly Language

Frameworks & Tools: GitHub, MongoDB, Express, React.js, Node.js, LangChain, Neo4J, ChromaDB, API, LLM (Hugging Face, Gemini, Claude, etc.), Microsoft Power BI, MySQL, MariaDB

Soft skills: Adaptability, Teamwork, Problem Solving, Accelerated Learning, Communication, Presentation, Writing, Detail Orientation, Multitasking, Pressure Management, Customer Service
